

EDUC 315: Prin of Teaching Math & Sci II (Gr. 4-6)

Provides candidates with knowledge, skills, dispositions and pedagogy to deliver content-rich, rigorous mathematics and science instruction for African American and diverse urban learners in grades 4-6. Candidates will have opportunities to employ a variety of instructional strategies to integrate mathematics and science content and the Common Core State Standards through the Principles of Learning Mathematics and Science. Field-based experiences provide an opportunity for candidates to design, develop and implement evidence-based lessons in science and mathematics.
