

# AHCC 003: Medical Terminology

Incorporates Medical Language for Modern Health Care that uses Contextual Learning Theory to introduce medical terminology within a healthcare environment. Introduces and defines terminology through the context of A &P, pathology, and clinical and diagnostic procedures/tests. Offers contextual content, a Word Analysis and Definition Table, and exercises all in one place. Word Analysis and Definition Tables provide a color-coded guide to word parts and combining forms, as well as definitions and pronunciations. With unfolding patient case studies and documentation, explores various roles in the healthcare environment, illustrating the real-life application of medical terminology in modern health care while facilitating active learning.

**Credits:** 2

**Prerequisites/Permissions:**

AHCC 110 registration

**Program:**

## Allied Health Education
