

CSCI 375: Software Engineering

This course will introduce students to the basic concepts of software engineering and the software development life cycle. The course will cover methodological techniques for software specification, design, implementation, testing, verification, and documentation. The course will also present the use of state-of-the-art tools for computer-aided software engineering (CASE).

Credits: 3

Prerequisites/Permissions:

CSCI 354

Program:

Computer Science
