

Art - Interior Design Concentration (B.F.A.)

The Interior Design program focuses on the function and quality of interior environments by considering aesthetic, technical, social and cultural aspects of the built environment. It emphasizes the development of the student's ability to handle design concepts, space analysis and planning and knowledge of materials, furnishings and construction in order to produce interiors for residential, commercial and special uses. The program prepares the student for further study in interior design and equips them with the skills and knowledge to serve as corporate design team members.
