

Interdisciplinary Studies - International Affairs (B.A.)

Our degree program is proposed as a field of study within the College of Arts and Sciences and, as such, would embrace several disciplines in the college and adhere to the college's general education curriculum. Our Interdisciplinary Studies program comprises a set of courses that ground theory in practice, emphasize teamwork, utilize the scholar-practitioner model, and forge partnerships with government, industry, corporations, non-profit organizations, and community organizations to provide students with hands-on experience.
