

# THTT 405: Rendering Techniques

Explore individual approaches of working professional designers, increase essential design skills (storyboard, modeling, sketching, costume rendering, drafting) and understanding of unique design within the framework of standard practice. Understand steps of typical theatrical design process, from first reading to collaborations necessary, that lead to opening. Explore associated skills for each step.

**Credits:** 3

**Prerequisites/Permissions:**

PreReq: THTT 312

**Program:**

## Theatre Technology
