

# PHYS 130: Introduction to Laser Physics

Provides an introduction to laser theory via a unified description of laser behavior. Emphasis is on the fundamental principles of lasers and the application of laser principles. Prerequisite: PHYS 178, PHYS 190.

**Credits:** 3

**Prerequisites/Permissions:**

PHYS 178, PHYS 190

**Program:**

Physics

## **COURSE DESCRIPTIONS**

**Essential Learning Outcomes:** ELO #3: Knowledge of the Physical and Natural World
