

EDUC 114: Honors First Year Research Sem

Introduces education research in different areas. These areas include but are not limited to research in literacy, science education, mathematics education, special education, assessment, applied cognitive psychology, and other areas. Students will be provided a brief presentation and will be given one paper to read that corresponds to the area. Students will learn how to analyze a journal article. Students will prepare to engage in discussions using the questions they created and their reflections.
